```
public static void processFile () throws IOException
{ Try (FileReader fr = new FileReader ("logfilesrc.txt");FileWriter fw = new FileWriter
("logfiledst.txt") ) {int i = fr.read();}}Which statement is true?A. The Java runtime may close the FileReader and FileWriter instance in an intermediate manner. Developers should not rely on the order in which they are closed.B. The java runtime automatically closes the FileReader Instance first and the FileWriter instance next.C. The developer needs to close the FileReader instance first and the FileWriter instance explicitly in a catch block.D. The java runtime automatically closes the FileWriter Instance first and the FileReader instance next.E. The code fragment contains compilation errors.Answer: DExplanation:The try-with-resources statement is a try statement that declares one or more resources. A resource is an object that must be closed after the program is finished with it. The try-with-resources statement ensures that each resource is closed at the end of the statement. Any object that implements java.lang.AutoCloseable, which includes all objects which implementjava.io.Closeable, can be used as a resource.Reference: The Java Tutorials, The try-with-resources Statement
```
