Note: \*You must define Intracompany balancing rules if you want to balance journals automatically. You may define as many or as few balancing rules as you choose, and each balancing rule may have one or many accounting rules. \*Intracompany balancing allows you to define rules according to the business needs of your company. When there are many balancing rules defined, the Balancing API uses an evaluation order to pick the appropriate rule. Once the balancing rule is selected, there may also be several accounting rules that must be evaluated on the balancing rule. The Balancing API uses the same order for evaluating accounting rules, and understanding this evaluation order will help you define your balancing rules and accounting rules.
