## New Test Question

Your investment will be secured with Photoexperienceacademy, certifications, The advantages of 156-587 study materials are numerous and they are all you need, Besides, it supports any electronic equipment, which means you can test yourself by 156-587 practice test in your Smartphone or IPAD at your convenience.

One year free update after purchase, I will give you my support if you have any problems and doubts when you learn the CheckPoint Certification 156-587 test dump.

If you are still busying with job seeking, our 156-587 latest training material will become your best helper, Here, I want to declare that the update dumps will be automatically sent to your email with which you use for payment.

Honesty and all serious hope for the future of corporate development compel that all our on-sale latest 156-587 exam dumps should be valid and useful for each buyer.

**NEW QUESTION: 1** A. Option B B. Option D C. Option A D. Option C **Answer: C**

**NEW QUESTION: 2** You have just assessed an investment proposal, involving an immediate cash outflow followed by a series of cash inflows over the next 7 years, by deducing the NPV and the IRR. You have now discovered that you have underestimated the discount rate. Correcting the underestimation will have the following effect, relative to your original deductions: A. NPV will reduce, IRR will not change B. NPV and IRR will both increase C. NPV will increase, IRR will reduce D. NPV and IRR will not change E. Not enough information given for an answer **Answer: A**

**NEW QUESTION: 3** Identify two correct statements about multitenant architectures. A. Multiple CDBs share certain PDB resources. B. A PDB can have a private undo tablespace. C. Multitenant architecture can be deployed only in a Real Application Clusters (RAC) configuration. D. Multiple non-RAC CDB instances can mount the same PDB as long as they are on the same server. E. Patches are always applied at the CDB level. F. Multiple pluggable databases (PDBs) share certain multitenant container database (CDB) resources. **Answer: E, F** Explanation: B: Using 12c Resource manager you will be able control CPU, Exadata I/O, sessions and parallel servers. A new 12c CDB Resource Manager Plan will use so-called "Shares" (resource allocations) to specify how CPU is distributed between PDBs. A CDB Resource Manager Plan also can use "utilization limits" to limit the CPU usage for a PDB. With a default directive, you do not need to modify the resource plan for each PDB plug and unplug. E: New paradigms for rapid patching and upgrades. The investment of time and effort to patch one multitenant container database results in patching all of its many pluggable databases. To patch a single pluggable database, you simply unplug/plug to a multitenant container database at a different Oracle Database software version. Incorrect: Not A: \*The Oracle RAC documentation describes special considerations for a CDB in an Oracle RAC environment. \*Oracle Multitenant is a new option for Oracle Database 12c Enterprise Edition that helps customers reduce IT costs by simplifying consolidation, provisioning, upgrades, and more. It is supported by a new architecture that allows a container database to hold many pluggable databases. And it fully complements other options, including Oracle Real Application Clusters and Oracle Active Data Guard. An existing database can be simply adopted, with no change, as a pluggable database; and no changes are needed in the other tiers of the application. Not D: You can unplug a PDB from one CDB and plug it into a different CDB without altering your schemas or applications. A PDB can be plugged into only one CDB at a time. not F: \*UNDO tablespace can NOT be local and stays on the CDB level. \*Redo and undo go hand in hand, and so the CDB as a whole has a single undo tablespace per RAC instance.

**NEW QUESTION: 4**As the HIM clerical supervisor, Debbie is concerned that some employees are not utilizing their talents and skills effectively. Which of the following should Debbie consider first?  
**A.** observing the workers more closely  
**B.** performing a job analysis  
**C.** revising job descriptions  
**D.** giving the employees additional responsibilities  
**Answer: B**
