So all of us staff participating in the aftersales [Valid C_THR89_2405 Test Guide](#) and production quality help you with the H3CSE-RS-SW practice exam and being your backup.

NEW QUESTION: 1 Which of the following are requirements for MyISAM binary portability?
A. Both machines must use two's-complement integer arithmetic.
B. Database and table names must use lowercase format.
C. Both machines must use IEEE floating-point format or contain no floating-point columns.
D. Both machines must use the same operating system.
Answer: A,B,C
Explanation: 32.3.4. Conditions for Binary Portability
MyISAM tables and InnoDB tablespaces are binary portable from one host to another if two conditions are met: Both machines must use two's-complement integer arithmetic. Both machines must use IEEE floating-point format, or else the tables must contain no floating-point columns (FLOAT or DOUBLE). In practice, those two conditions pose little restriction. Two's-complement integer arithmetic and IEEE floating-point format are the norm on modern hardware. A third condition for InnoDB binary portability is that you should use lowercase names for databases and tables. This is because InnoDB stores these names internally (in its data dictionary) in lowercase on Windows. Using lowercase names allows binary portability between Windows and Unix. To force the use of lowercase names, you can put the following lines in an option file: [mysqld]
lower_case_table_names=1

NEW QUESTION: 2 Which role is assigned prior to launching the captive portal splash screen?
A. CP default role
B. AAA role
C. AAA-CP role
D. Pre-authentication role
E. Post-authentication role
Answer: D

NEW QUESTION: 3 Which HP series supports HP Sure Start?
A. HP Chromebook
B. HP Pro 400 series Desktop PCs
C. HP 200 series Notebook PCs
D. HP EliteBook Notebook PCs
Answer: D
Explanation:
