**NEW QUESTION: 1** HOTSPOT Your network contains an Active Directory domain named contoso.com. The domain contains three servers named Server1, Server2, and Server3 that run Windows Server 2016. Server1 has IP Address Management (IPAM) installed. Server2 and Server3 have the DHCP Server role installed and have several DHCP scopes configured. The IPAM server retrieves data from Server2 and Server3. A domain user named User1 is a member of the groups shown in the following table. On Server1, you create a security policy for User1. The policy grants the IPAM DHCP Scope Administrator Role with the Global access scope to the user. Which actions can User1 perform? To answer, select the appropriate options in the answer area. **Answer:** Explanation:

**NEW QUESTION: 2**  **A. Option C B. Option E C. Option D D. Option B E. Option A** **Answer: D, E**

**NEW QUESTION: 3** Joe, a security administrator, is concerned with users tailgating into the restricted areas. Given a limited budget, which of the following would BEST assist Joe with detecting this activity? **A. Place a full-time guard at the entrance to confirm user identity. B. Install a motion detector near the entrance. C. Install a camera and DVR at the entrance to monitor access. D. Revoke all proximity badge access to make users justify access.** **Answer: C** Explanation: Tailgating is a favorite method of gaining entry to electronically locked systems by following someone through the door they just unlocked. With a limited budget installing a camera and DVR at the entrance to monitor access to the restricted areas is the most feasible solution. The benefit of a camera (also known as closed-circuit television, or CCTV) is that it is always running and can record everything it sees, creating evidence that can be admissible in court if necessary. Incorrect Answers: A. A full-time guard at the entrance of the restricted areas will also work, but would be more costly and guards can also be impersonated. Guards are also more costly in the sense that, guards in combination with security cameras will be more effective which means that you still need both. C. Revoking proximity badges will just give free access to all if no other measures are in place. D. A motion detector will inevitably be triggered even when legitimate users enter the restricted area.
