Which characteristic of an effective plan does this demonstrate?**A.** Mitigation**B.** Response**C.** Deterrence**D.** Recovery**Answer: A****Explanation:**Explanation/Reference:Explanation:An effective business continuity plan includes steps to mitigate the effects of a disaster. Files must be restored on a timely basis for a backup plan to be effective. An example of deterrence is when a plan includes installation of firewalls for information systems. An example of recovery is when a plan includes an organization's hot site to restore normal business operations.

NEW QUESTION: 3Which design principles for cloud architecture are recommended when re-architecting a large monolithic application? (Select TWO.)**A.** Design for scalability.**B.** Implement loose coupling.**C.** Use manual monitoring.**D.** Rely on individual components.**E.** Use fixed servers.**Answer: A,D****Explanation:**ExplanationRearchitecting applications involves sweeping change where an old monolithic application is completely revamped according to modern microservices architecture. Using individual components to re-architect a big application is one part of the process. The most important part is to design the application for scalability because the level of investment for a monolithic application can only be justified when resilience and scalability is needed.
