NEW QUESTION: 3You plan to deploy an Azure container instance by using the following Azure Resource Manager template.Use the drop-down menus to select the answer choice that completes each statement based on the information presented in the template.**Answer:** Explanation:ExplanationBox 1: can connect to the container from any deviceIn the policy "osType": "window" refer that it will create a container in a container group that runs Windows but it won't block access depending on device type.Box 2: the container will restart automaticallyDocker provides restart policies to control whether your containers start automatically when they exit, or when Docker restarts. Restart policies ensure that linked containers are started in the correct order. Docker recommends that you use restart policies, and avoid using process managers to start containers.on-failure : Restart the container if it exits due to an error, which manifests as a non-zero exit code.As the flag is mentioned as "on-failure" in the policy, so it will restart automaticallyReference:
