1.100% guaranteed first pass L3M2 exam.

NEW QUESTION: 1A user wants to build a dashboard for an operations manager who wants to monitor the number of unsatisfied customer calls which were not resolved by the call center representative and had to be escalated. The operations manager wants to monitor this over five minute intervals, over one day, and compare them with a similar trend over the last ten years. Daily transactional data is stored in a database, and is loaded into a data warehouse nightly for historical analysis and purged weekly. Which two actions achieve this using the Cognos suite of products? (Choose two.)**A.** Use RTM to model both a five minute and a 10-year trend chart using the temporal windows functionality based on the database data for data streams and the data warehouse for a lookup table.**B.** Use Business Intelligence to model both the 10-year trending and the five-minute trend chart based on the data warehouse and display them in the Business Insight workspace.**C.** Use Real-time Monitoring (RTM) to model both a five minute and a 10-year trend chart using the temporal windows functionality based on the database data only.**D.** Use Business Intelligence to model a 10-year trend chart based on the data warehouse and RTM to model a five minute trend chart based on the database and display them together in the Business Insight workspace.**Answer: A,D**

NEW QUESTION: 2When connected to the Check Point R80 Management Server using the SmartConsole the first administrator to connect has a lock on:**A.** Only the objects being modified in the Management Database and other administrators can connect to make changes using a special session as long as they all connect from the same LAN network.**B.** The entire Management Database and all sessions and other administrators can connect only as Read-only.**C.** Only the objects being modified in his session of the Management Database and other administrators can connect to make changes using different sessions.**D.** The entire Management Database and other administrators can connect to make changes only if the first administrator switches to Read-only.**Answer: C**
