NEW QUESTION: 1 A customer asks for one storage device with a peak load of minimum 160,000 IOPS. Which statement is INCORRECT to make when advising this customer? **A.** We definitely need to go with two IBM DS8870s to solve this requirement. **B.** The "Disk Magic" tool helps with modeling and to find the right configuration. **C.** Many IOPS also require many disk drive spindles to be used, unless we go with some flash. **D.** The requirement could be solved completely with just 15,000 RPM HDD spindles. However, some Flash capacity helps reduce the number of HDDs. **Answer: C**

NEW QUESTION: 2 Refer to the exhibit. You must deny your service providers from using your network as a transit AS. The solution must ensure that the network remains reachable. Which AS path access list do you use in the local only route map? **A. 0B. 1C. 2D. 3** **Answer: A**

NEW QUESTION: 3 Assume you are actively working, along with your team, to manage stakeholder engagement on your project to develop a new drug to prevent any retina problems of any type. You know you must manage their engagement throughout the project life cycle. This means some organizational process assets will need updating including _____ **A.** The stakeholder management plan **B.** Informal and formal project reports **C.** The stakeholder register **D.** Work performance information **Answer: B** **Explanation:** Explanation/Reference: Explanation: While a number of different organizational process assets require updates as a result of the manage stakeholder engagement process, project reports is one example. They include the formal and informal project reports that describe project status and include lessons learned, issue logs, project closure reports, and outputs from other knowledge areas.
