NEW QUESTION: 1 An administrator needs to forecast infrastructure requirements for a new program and its associated applications. Prior to the projected start of the new program, all existing applications will be decommissioned. How should the administrator perform this task?
A. Add up the recovered workloads and manually remove from the Runway configuration. **B.** Power down the workloads during a maintenance window and run the Capacity Runway. **C.** Check the Disregard Existing Workloads radio button in the Runway scenario. **D.** Check the Disregard Existing Nodes radio button in the Runway scenario. **Answer: C**

NEW QUESTION: 2

メディアストリーミング会社がリアルタイムデータを収集し、ディスクに最適化されたデータベースシステムに保存している会社は期待するスループットを実現できておらず、データレプリケーションを使用して高速で高可用性を提供するインメモリデータベースストレージソリューションを求めています。ソリューションアーキテクトが推奨するデータベースはどれですか？ **A.** Amazon RDS for PostgreSQL **B.** Memcached用 Amazon ElastiCache **C.** Redis用 Amazon ElastiCache **D.** Amazon RDS for MySQL **Answer: C** Explanation:

<https://aws.amazon.com/elasticache/redis-vs-memcached/> In-memory databases on AWS Amazon ElastiCache for Redis Amazon ElastiCache for Redis is a blazing fast in-memory data store that provides submillisecond latency to power internet-scale, real-time applications. Developers can use ElastiCache for Redis as an in-memory nonrelational database. The ElastiCache for Redis cluster configuration supports up to 15 shards and enables customers to run Redis workloads with up to 6.1 TB of in-memory capacity in a single cluster. ElastiCache for Redis also provides the ability to add and remove shards from a running cluster. You can dynamically scale out and even scale in your Redis cluster workloads to adapt to changes in demand <https://aws.amazon.com/nosql/in-memory/>

NEW QUESTION: 3 Conflict had existed between Spain and England since the 1570s. England wanted a share of the wealth that Spain had been taking from the lands it had claimed in the Americas. Elizabeth I, Queen of England, encouraged her staunch admiral of the navy, Sir Francis Drake, to raid Spanish ships and towns. Though these raids were on a small scale, Drake achieved dramatic success, adding gold and silver to England's treasury and diminishing Spain's omnipotence. Religious differences also caused conflict between the two countries. Whereas Spain was Roman Catholic, most of England had become Protestant. King Philip II of Spain wanted to claim the throne and make England a Catholic country again. To satisfy his

ambition and also to retaliate against England's theft of his gold and silver, King Philip began to build his fleet of warships, the Armada, in January 1586. Philip intended his fleet to be indestructible. In addition to building new warships, he marshaled one hundred and thirty sailing vessels of all types and recruited more than nineteen thousand robust soldiers and eight thousand sailors. Although some of his ships lacked guns and others lacked ammunition, Philip was convinced that his Armada could withstand any battle with England. The martial Armada set sail from Lisbon, Portugal, on May 9, 1588, but bad weather forced it back to port. The voyage resumed on July 22 after the weather became more stable. The Spanish fleet met the smaller, faster, and more maneuverable English ships in battle off the coast of Plymouth, England, first on July 31 and again on August 2. The two battles left Spain vulnerable, having lost several ships and with its ammunition depleted. On August 7, while the Armada lay at anchor on the French side of the Strait of Dover, England sent eight burning ships into the midst of the Spanish fleet to set it on fire. Blocked on one side, the Spanish ships could only drift away, their crews in panic and disorder. Before the Armada could regroup, the English attacked again on August 8. Although the Spaniards made a valiant effort to fight back, the fleet suffered extensive damage. During the eight hours of battle, the Armada drifted perilously close to the rocky coastline. At the moment when it seemed that the Spanish ships would be driven onto the English shore, the wind shifted, and the Armada drifted out into the North Sea. The Spaniards recognized the superiority of the English fleet and returned home, defeated. Philip recruited many ___ soldiers and sailors. **A. strong** **B. accomplished** **C. non experienced** **D. timid** **E. warlike**
