You create a user named User1 in Active Directory as shown in the following exhibit. For each of the following statements, select Yes if the statement is true. Otherwise, select No. NOTE: Each correct selection is worth one point.

The Directory Extensions page shows which additional attributes will be synchronized (additional to the list in the Azure AD Attributes page).
ExtensionAttribute1: Will be synchronized because it is ticked in the Azure AD Attributes page.
ExtensionAttribute10: Will be synchronized because although it is unticked in the Azure AD Attributes page, it is added again in the Directory Extensions page.
ExtensionAttribute11: Will not be synchronized because it is unticked in the Azure AD Attributes page and it is not added again in the Directory Extensions page.
ExtensionAttribute12: Will be synchronized because it is ticked in the Azure AD Attributes page. It is also added again in the Directory Extensions page but this will have no effect as it is already ticked in the Azure AD Attributes page.
