NEW QUESTION: 2During which phase of an IT system life cycle are security requirements developed?
A. Initiation
B. Implementation
C. Operation
D. Development
Answer: D
Explanation: The System Development Life Cycle is the process of developing information systems through investigation, analysis, design, implementation, and maintenance. The System Development Life Cycle (SDLC) is also known as Information Systems Development or Application Development. If you take a look at the standard IT system life cycle chart, you will see that everything that deals with security requirements is done at the "development" stage. In this stage you can create the access controls, the form of authentication to use and all the other security requirements.
