You are creating a migration plan for the two scenarios shown in the following table. You need to evaluate whether the client computer software supports Office 365. Which software requires action? To answer, drag the appropriate status to each target in the scenario table. Each status may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.**Answer:** Explanation: Explanation Office 365 is designed to work with any version of Microsoft Office in mainstream support, which excludes Office 2010.
