NEW QUESTION: 1 What happens to "new" data that a Steelhead appliance has not seen before? (Select 2)**A.** Scalable Data Referencing creates and sends new reference pointers to the peer Steelhead appliance**B.** Sends only the references for the data to the counterpart Steelhead appliance**C.** Compress the data using Lempel-Ziv and sends it to the peer Steelhead appliance**D.** Create a tunnel to optimize the data**E.** Drop the new data**Answer: A,C**

NEW QUESTION: 2DRAG DROPYou need to allow users to capture video instead of photos. You have the following code:Which code snippets should you include in Target 1 and Target 2 to complete the code? (To answer, drag the appropriate code snippets to the correct targets in the answer area. Each code snippet may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.)**Answer:** Explanation:Topic 3, E-reader appBackgroundYou are developing a Windows Store style e-reader app.Business Requirements - Users must be able to upload e-books and documents and download them to e-reader devices. - Users must be able to set a password to restrict access to their e-books and documents. - Users must be able to create and store encrypted metadata about their e-books and documents. - The app must replace system-generated error messages with custom-defined messages. These custom messages must come from a list of approved text. - User actions such as printing pages, saving users' current locations in documents, and taking notes should be enabled from buttons on an AppBar control. - The app must provide trial functionality that will expire after 14 days. If the app expires while it is running, the app must display an expiration message to the user and prompt the user to purchase the app.Technical RequirementsGeneral: - Configuration files must be read-only. All user settings must be stored in the Contoso Settings Service. - The SocialPoller background task must run the code in the DoWork() method to collect content from the Contoso feed. - The UI must always remain responsive to user actions. Security - Secured e-book and document passwords must to be encrypted so that only the user

who created the passwords can retrieve the metadata associated to the e-books and documents.The system must log all exceptions through the auditing object and notify technicians of the issue.Storage: - The app must cache the next two chapters to the local device for users to read while disconnected from the network. This cache must be persisted if a reboot is performed. - User state such as the current location in an e-book or document must be stored in the Microsoft SQL Azure database. - User settings such as font sizes and colors must be stored through the Contoso Settings Service.Network:Communication between the app and e-book vendors must occur over anencrypted communication channel.Communication must use certificates to enable the SSL connection.Trial Functionality:-----The isPrintEnabled variable must determine if the user can print.The isMarketEnabled variable must determine if the user can use the marketplace.The isTrialEnabled variable must determine if the application is still in trial mode.Printing:--The default printing options are portrait orientation and grayscale color mode.The app must enable the user to select the media size and printing orientation.SocialPoller.esAuditor.csContentPage.esBook.cs Book.csSocialPost.es Pagel.xaml.esApp.xaml.cs

NEW QUESTION: 3 Refer to the exhibit.Which method was used to define this rogue AP as malicious?**A.** A rogue AP alert was enabled that defines all rogues with open SSIDs as malicious. **B.** This rogue AP matched a WCS malicious rogue AP classification rule.**C.** A WCS switch port trace was performed and the MAC address of the rogue AP was found connected to a Cisco switch port.**D.** This rogue AP was discovered using RLDP.**Answer: A**

NEW QUESTION: 4 In Oracle Transactional Business Intelligence (OTBI), which subject area should you use to report on spend for purchase orders and their associated requisitions?**A.** Procurement - Procure to Pay Real Time**B.** Procurement - Purchasing Real Time**C.** Procurement - Spend**D.** Procurement - Requisitions Real Time**Answer: A**
