NEW QUESTION: 3 When using VMware HA, the larger the consolidation ratio, the smaller the potential impact to the business in the event of a VMware HA event. **A. False B. True**
Answer: A
Explanation: VMware HA can satisfy the majority of RTO scenarios. In general, businesses can tolerate small outages of shorter than a few minutes. Designed correctly, HA can satisfy this requirement while providing hardware-level protection. Some design considerations are the restart time and impact of the outage; the fact that the more VMs per host, the higher the consolidation ratio; and the possibly longer time to restart along with its larger impact to the business.
