On the other hand, the professional NRCMA study materials determine the high pass rate, We will try genuinely and sincerely to meet all the requirements of our customers.

NEW QUESTION: 1With which of the following should an anti-money laundering officer coordinate when implementing a new hire screening program?**A.** Internal auditor**B.** Institution's regulator**C.** Local Financial Intelligence Unit**D.** Human resources**Answer: D**

NEW QUESTION: 2Refer to the exhibit.All switches have default bridge priorities, and originate BPDUs with MAC addresses as indicated.The numbers shown are STP link metrics.After STP converges, you discover that traffic from switch SWG toward switch SWD takes a less optimal path. What can you do to optimize the STP tree in this switched network?**A.** Change the priority of switch SWB to a higher value than the default value.**B.** Change the priority of switch SWD to a lower value than the default value.**C.** Change the priority of switch SWG to a higher value than the default value.**D.** Change the priority of switch SWA to a lower value than the default value.**Answer: B**Explanation:Explanation/Reference:Explanation:In this topology, we see that all port paths and priorities are the same, so the lowest MAC address will be used to determine the best STP path. From SWG, SWE will be chosen as the next switch in the path because it has a lower MAC address than SWF. From SWE, traffic will go to SWC because it has a lower MAC address, and then to SWD, instead of going from SWE directly to SWD. If we lower the priority of SWD (lower means better with STP) then traffic will be sent directly to SWD.

NEW QUESTION: 3What is a possible reason for the error message?Router(config)#aaa server?% Unrecognized command**A.** The router is already running the latest operating system **B.** The router is a new device on which the aaa new-model command must be applied before continuing**C.** The command is invalid on the target device**D.** The command syntax requires a space after the word "server"**Answer: B**Explanation:Explanation/Reference:Explanation:It means that the router is a new device on which aaa new model command must be applied before inducting it into the system.Reference:
