**NEW QUESTION: 2**The latest independent research shows that cyber attacks involving SCADA systems grew an average of 15% per year in each of the last four years, but that this year's growth has slowed to around 7%.Over the same time period, the number of attacks against applications has decreased or stayed flat each year. At the start of the measure period, the incidence of PC boot loader or BIOS based attacks was negligible. Starting two years ago, the growth in the number of PC boot loader attacks has grown exponentially. Analysis of these trends would seem to suggest which of the following strategies should be employed?**A.** Spending on SCADA security controls should increase by 15%; application control spending should increase slightly, and spending on PC boot loader protections should remain steady.**B.** Spending all controls should increase by 15% to start; spending on application controls should be suspended, and PC boot loader protection research should increase by 100%.**C.** Spending on SCADA security controls should stay steady; application control spending should decrease slightly and spending on PC boot loader protections should increase substantially.**D.** Spending on SCADA protections should stay steady; application control spending should increase substantially and spending on PC boot loader controls should increase substantially.**Answer: C** Explanation:Spending on the security controls should stay steady because the attacks are still ongoing albeit reduced in occurrence Due to the incidence of BIOS-based attacks growing exponentially as the application attacks being decreased or staying flat spending should increase in this field.Incorrect Answers:A: The SCADA security control spending and not the SCADA protection spending should stay steady.There is no need to in spending on application control.C: There is non increase spending on all security controls.D: This is partly correct, but the spending on application control does not have to increase and the BIOS protections should

increase since these attacks are now more prevalent. References: Gregg, Michael, and Billy Haines, CASP CompTIA Advanced Security Practitioner Study Guide, John Wiley & Sons, Indianapolis, 2012, p. 343 <https://en.wikipedia.org/wiki/SCADA>

Generate a warning message when a manager or compensation professional enters a new or adjusted salary that is outside the minimum or maximum values defined for the worker's grade in the grade rate attached to the salary basis.

**NEW QUESTION: 4** An organization's security policy requires multiple copies of all critical data to be replicated across at least a primary and backup data center. The organization has decided to store some critical data on Amazon S3. Which option should you implement to ensure this requirement is met?  
**A.** Use the S3 copy API to replicate data between two S3 buckets in different regions  
**B.** Use the S3 copy API to replicate data between two S3 buckets in different facilities within an AWS Region  
**C.** You do not need to implement anything since S3 data is automatically replicated between multiple facilities within an AWS Region  
**D.** You do not need to implement anything since S3 data is automatically replicated between regions  
**Answer: C**  
**Explanation:** Explanation/Reference: Explanation: You specify a region when you create your Amazon S3 bucket. Within that region, your objects are redundantly stored on multiple devices across multiple facilities. Please refer to Regional Products and Services for details of Amazon S3 service availability by region. <https://aws.amazon.com/s3/faqs/>
