NEW QUESTION: 1A. Option CB. Option AC. Option BD. Option DAnswer: C,DExplanation: Reference:http://www.vm-help.com/esx/esx3i/ESXi_restart_agents.php

NEW QUESTION: 2Beth is the project manager for her organization. Her current project has many deliverables that have been defined at a high level, but the details of the deliverables are still unknown. In her project, Beth is planning in detail only the activities that are most imminent in the project work. This approach to project management planning is known as what?**A. Predecessor-only diagrammingB. DecompositionC. Rolling wave planningD. Imminent activity managementAnswer: C**Explanation:Rolling wave planning is a technique to plan and do the most imminent project work before moving onto the details that are far off in the project schedule and project plan. Rolling wave planning is a technique for performing progressive elaboration planning where the work to be accomplished in the near future is planned in detail at a low level of the work breakdown structure. The work to be performed within another one or two reporting periods in the near future is planned in detail as work is being completed during the current period. Answer option D is incorrect. Decomposition is the process of breaking down work packages into the activity list. Answer options A and C are incorrect. These are not valid project management terms.

NEW QUESTION: 3A Solutions Architect is designing a solution to send Amazon CloudWatch Alarm notifications to a group of users on a smartphone mobile application.
