It has various self-learning and self-assessment features those help user to get acquainted with the actual Amazon AI1-C01 exam, Excellent customer care and best Practice Exam Questions.

AI1-C01 New Test Tips | Efficient AI1-C01 Preparation: AWS Certified AI Practitioner Exam 100% Pass

The optimization of AI1-C01 training questions is very much in need of your opinion, As the quick development of the world economy and intense competition in the international, the

world [C-THR81-2311 Braindump Free](#) labor market presents many new trends: company's demand for the excellent people is growing.

We designed those questions according to the core knowledge and key point, so with this targeted and efficient AI1-C01 exam dump, you can pass the AI1-C01 : AWS Certified AI Practitioner Exam exam easily.

It means we will provide the new updates freely for you later, There is no similar misconception in AI1-C01 dumps because we have made it more interactive for you.

The course of AI1-C01 test training vce is developed by experienced experts' extensive experience and expertise and the quality is very good with fast update rate.

Almost no one likes boring study, - Offers free braindumps for [Exam C-ACTIVATE22 Learning](#) Amazon AWS Certified AI Practitioner Exam, It's a good start nonetheless, Your convenience and demands also deserve our deep consideration.

The AI1-C01 learning materials from our company have helped a lot of people get the certification and achieve their dreams.

NEW QUESTION: 1 Which of the following does not represent steps in Enterprise Risk Management (ERM)?
A. Identify mitigation options for risks
B. Identify risks
C. Make decisions about dealing with risks
D. Reduce risks
E. Identify those responsible for risks
Answer: E
Explanation: Explanation: The steps for Enterprise Risk Management are focused primarily on identifying risk and pursuing means of managing and reducing risk. As a result, this includes answer choices A, C, D, and E. The steps of Enterprise Risk Management do not, however, include identifying the employees who are responsible for the risk. This might be part of the larger process of understanding risk, but it does not fall under the primary steps of Enterprise Risk Management. Answer choice B is, therefore, correct.

NEW QUESTION: 2 A legacy server on the network was breached through an OS vulnerability with no patch available. The server is used only rarely by employees across several business units. The theft of information from the server goes unnoticed until the company is notified by a third party that sensitive information has been posted on the Internet. Which control was the first to fail?
A. Data classification
B. Incident response
C. Security awareness
D. Access control
Answer: A
Explanation: Explanation/Reference: Explanation: The legacy system was not properly classified or assigned an owner. It is critical that an organization identifies and classifies information so proper controls and measures should be put in place. The ultimate goal of data classification is to make sure that all information is properly protected at the correct level. This was not a failure of incident response, access control or security awareness training.

NEW QUESTION: 3 The average power consumption in a telecommunications room (TR) is 2260 watts per hour. What is the heat dissipation in BTUs?
A. 8104 BTU
B. 7096 BTU
C. 8511 BTU
D. 7713 BTU
Answer: D

NEW QUESTION: 4 A Solutions Architect is designing a network solution for a company that has applications running in a data center in Northern Virginia. The applications in the company's data center require predictable performance to applications running in a virtual private cloud (VPC) located in us-east-1, and a secondary VPC in us-west-2 within the same account. The company data center is collocated in an AWS Direct Connect facility that serves the us-east-1 region. The company has already ordered an AWS Direct Connect connection and a cross-connect has been established. Which solution will meet the requirements at the LOWEST cost?
A. Order a second Direct Connect connection to a Direct Connect facility with connectivity

to the us-west-2 region. Work with partner to establish a network extension link over dark fiber from the Direct Connect facility to the company's data center. Establish private VIFs on the Direct Connect connections for each of the company's VPCs in the respective regions. Configure the company's data center router to connect directly with the VPCs in those regions via the private VIFs.**B.** Create private VIFs on the Direct Connect connection for each of the company's VPCs in the us-east-1 and us-west-2 regions. Configure the company's data center router to connect directly with the VPCs in those regions via the private VIFs.**C.** Deploy a transit VPC solution using Amazon EC2-based router instances in the us-east-1 region. Establish IPsec VPN tunnels between the transit routers and virtual private gateways (VGWs) located in the us-east-1 and us-west-2 regions, which are attached to the company's VPCs in those regions. Create a public VIF on the Direct Connect connection and establish IPsec VPN tunnels over the public VIF between the transit routers and the company's data center router.**D.** Provision a Direct Connect gateway and attach the virtual private (VGW) for the VPC in us-east-1 and the VGW for the VPC in us-west-2. Create a private VIF on the Direct Connect connection and associate it to the Direct Connect gateway.**Answer: C**Explanation:Explanation
