Each answer choice provides a complete solution.)**A.** The WitAdmin.exe utility **B.** The TCM.exe utility **C.** A Direct Links query **D.** Shared Steps Manager **Answer: C,D**

NEW QUESTION: 3 **HOTSPOT** Your company has a private cloud that contains a System Center 2012 R2 infrastructure. You plan to use service level objectives (SLOs) to monitor the network resources. In the table below, identify which type of SLO should be used to achieve each SLO goal. Make only one selection in each row. **Answer:** Explanation: Explanation: Why? Here is a quote from the book: Monitor-Based Objectives Monitor-based objectives are used to measure the time in state of a specific objects. When defining a monitor based SLO, you have the ability to determine which of these states constitutes a breach of the SLO. An overall target is then set for the total time that the monitor must not be in the breach state. Collection Rule Objectives With collection rule SLOs, you can choose a performance collection rule and then measure it against a specific target. The measure can be based upon the performance counter's minimum, maximum, or average value, and the target can be greater than, less than, or equal to it.
