NEW QUESTION: 1Your manager has approached you regarding her desire to outsource certain functions to an external firm. She would like for you to create a document to send to three vendors asking them for solutions for these functions that your organization is to outsource. What type of a procurement document would you create and send to the vendors in this instance?
A. Request for Quote
B. Invitation for Bid
C. Request for Information
D. Request for Proposal
Answer: D
Explanation: Explanation/Reference: Answer option C is correct. A request for proposal (RFP) is a procurement document that asks the vendor to provide solutions, ideas, and detailed information about the outsourced function. The vendor will provide a proposal in response to the RFP. An RFP is often sent with a statement of work that details the outsourcing need that the vendor is to provide a solution and a price. Answer option A is incorrect. A Request for Quote (RFQ) is a procurement document that asks the vendor to provide just a price for the solution to be purchased - no ideas or suggestions are needed from the vendor. RFQ are often used with materials, such as cost per metric ton or cost per unit. Answer option B is incorrect. An invitation for bid (IFB) is identical to the request for quote. It is a procurement document asking the vendor for a fixed price for a specific thing to be purchased. Answer option D is incorrect. A request for information (RFI) asks the vendor for more information about their solution, services, or company. An RFI could ask for samples, references of work, white papers, and more information.
