**NEW QUESTION: 1**You plan to grant the member of a new Azure AD group named corp75099086 the right to delegate administrative access to any resource in the resource group named 7509086. You need to create the Azure AD group and then to assign the correct role to the group. The solution must use the principle of least privilege and minimize the number of role assignments. What should you do from the Azure portal? **Answer:** Explanation: See explanation below. Explanation Step 1: Click Resource groups from the menu of services to access the Resource Groups blade Step 2: Click Add (+) to create a new resource group. The Create Resource Group blade appears. Enter corp7509086 as the Resource group name, and click the Create button. Step 3: Select Create. Your group is created and ready for you to add members. Now we need to assign a role to this resource group scope. Step 4: Choose the newly created Resource group, and Access control (IAM) to see the current list of role assignments at the resource group scope. Click +Add to open the Add permissions pane. Step 5: In the Role drop-down list, select a role Delegate administration, and select Assign access to: resource group corp7509086 References: <https://docs.microsoft.com/en-us/azure/role-based-access-control/role-assignments-portal> <https://www.juniper.net>
