**NEW QUESTION: 1** A nurse teaches a mother of a 2-month-old infant to be sure that the floor is free of small objects when her child is crawling. The reason for this is that:**A.** it is very hazardous for them to pick up things from the floor.**B.** sharp objects can easily injure the infant's skin.**C.** the infant could hide small objects making them harder to find.**D.** the infant can easily pick up small objects**Answer: D****Explanation:**Explanation: A 2-month-old infant already has the ability to use its fingers and thumbs in opposition (known as pincer grasp); this therefore enables it to pick up small objects and put them into its mouth which could lead to aspiration.

**NEW QUESTION: 2** Which technique does Oracle use to perform full backups of data files?**A.** The server process reads and backs up the entire file.**B.** The server process reads the entire file and skips blocks that currently are not being used.**C.** The server process reads the entire file and skips blocks that have never been used.**D.** The server process reads the entire file and skips blocks assigned its temporary segments.**E.** The server process reads the entire file and skips blocks that are unchanged from the last backup.**Answer: C****Explanation:**Oracle uses special technique to perform full backups of data files: the server process reads the entire file and skips blocks that never been used. The FULL option of the BACKUP command in RMAN specifies a full backup, which is similar to an incremental level 0 backup, in which the full datafile will be copied to the backup set. The main difference is that a full backup will save every block in a datafile (except for datafile blocks that have never been used), while an incremental level 0 backup will skip empty blocks. Incorrect Answers:**A:** The server process reads and backs up the entire file except blocks that have never been used.**C:** The server process will not skip blocks assigned its temporary segments.**D:** The server process will not skip blocks that currently are not being used.**E:** The server process will not skip blocks that are unchanged from the last backup.
