NEW QUESTION: 1 Which address are OSPF hello packets addressed to on point-to-point networks?**A.** 254.255.255.255**B.** 224.0.0.5**C.** 223.0.0.1**D.** 192.168.0.5**E.** 172.16.0.1**Answer: B**
Explanation: Why does the show ip ospf neighbor Command Reveal Neighbors in the Init State? http://www.cisco.com/en/US/tech/tk365/technologies_tech_note09186a0080093f11.shtml
OSPF hello packets have a destination address of 224.0.0.5 (the all ospf routers multicast address).

NEW QUESTION: 2 A user wants a SOHO network to be protected from unauthorized users hacking their network. Which of the following should be implemented to aide in this matter?**A.** Firewall**B.** VPN**C.** OC3**D.** Throughput tester**Answer: A**
Explanation: Explanation/Reference:
Explanation:

NEW QUESTION: 3 What will have the HIGHEST impact on standard information security governance models?**A.** Complexity of organizational structure**B.** Number of employees**C.** Organizational budget**D.** Distance between physical locations**Answer: A**
Explanation: Information security governance models are highly dependent on the overall organizational structure. Some of the elements that impact organizational structure are multiple missions and functions across the organization, leadership and lines of communication. Number of employees and distance between physical locations have less impact on information security governance models since well-defined process, technology and people components intermingle to provide the proper governance. Organizational budget is not a major impact once good governance models are in place, hence governance will help in effective management of the organization's budget.
