As old saying goes, no pains no gains, The three versions of C1000-058 study materials are excellent, Because our C1000-058 learning materials contain not only the newest questions [CFPE Latest Test Report](#) appeared in real exams in these years, but the most classic knowledge to master.

Our C1000-058 practice braindumps are selected strictly based on the real C1000-058 exam and refer to the exam papers in the past years, We provide IBM C1000-058 web-based self-assessment practice software that will help you to prepare for the IBM IBM MQ V9.1 System Administration exam.

**NEW QUESTION: 1** See the Scenario for additional information.CruiseAlong CarsCruiseAlong Cars is a car manufacturing and sales company with corporate headquarters in the United States of America. It has grown by acquisition over the last 20 years and has operations in over 50 countries. Each country has its own IT organization, with some central corporate IT services provided by the US parent company. In some countries CruiseAlong Cars has outsourced infrastructure and service desks. The largest IT supplier is Global City IT Services (GCITS). In two countries GCITS provides CruiseAlong Cars with full outsourced services. They also provide selected services in other countries. Some of the issues that CruiseAlong Cars needs to address include:  
\* Inefficiencies caused by the current IT structure  
\* Inconsistency of IT services when employees are travelling  
CruiseAlong Cars is working with a European university (the University of Bachstein) to research and develop driverless car technology. The venture operates as an independent company called DriveYou.com, and CruiseAlong Cars owns a 51% share.  
DriveYou.comThis is a small, innovative company, that is jointly owned by CruiseAlong Cars and the University of Bachstein (UoB). DriveYou.com develops custom applications using a highly collaborative, rapid and iterative development approach. Their employees are mostly research and development experts, working from multiple locations, with a significant number working from home. Initial driverless car testing is being conducted in the US at the Nevegon State Department of Transportation. Infrastructure and cloud services are purchased from Global City IT Services and other providers, and these relationships are managed by a DriveYou.com supplier manager. Some of the issues that DriveYou.com needs to address include:  
\* Better structure and accountability around their work practices  
\* Compliance with safety and other regulatory requirements.  
University of Bachstein (UoB)The UoB is a university that is based Germany, with a satellite campus in Kuala Lumpur, Malaysia. In the past, some IT services were funded and run centrally, and some were funded and run independently by each faculty. Centrally owned services include a 'walk-in' service desk, plus a separate service desk in the main library, run by library staff. Library services and IT are both part of the university's administrative services division. Recently, under a new CIO, there has been a drive to centralize and consolidate IT as a corporate function, although this has not been fully achieved. The central IT department runs a variety of legacy systems, which serve students, administrators, researchers and academics. It also runs some high performance computing systems and high bandwidth networks across the main campus area. Some of the issues that the UoB needs to address include:  
\* Complete the centralization and consolidation of IT  
\* Manage growth and increasing IT demand  
\* Demonstrate value through competitive, responsive and transparent services  
Global City Services (GCITS) GCITS is a global service provider which has grown through acquisition and which offers a wide range of services, including IT support, infrastructure and consulting. GCITS has mature and efficient IT service management

processes, and holds an ISO/IEC 20000 certification. GCITS provides the entire infrastructure and some cloud services for DriveYou.com, as well as a range of services in different countries to CruiseAlong Cars. Some of the issues that GCITS needs to address include:  
\* Succeed in establishing a strategic partnership with CruiseAlong Cars Nevagon State Department of Transportation (NSDoT) NSDot is a government agency in the US state of Nevagon, where DriveYou.com is running their trials. It is responsible for managing transportation systems and safety. DriveYou.com must work with the agency to ensure that their trials comply with safety regulations, and the program includes bi0directional sharing of large amounts of data. The NSDoT's internal IT team writes and manages most of their agency-specific applications, however most other applications and infrastructure are provided by the Nevagon State central IT department. GCITS will create a new 'global mobile VIP service' for CruiseAlong Cars senior executives, which will give them access to corporate IT services from mobile devices, from any location. The new service will be delivered by the existing GCITS centralized service desk. It will include 24/7 support, and reported incidents and requests will be treated as a high priority. GCITS has subcontracted global mobile network access to Mobilwork, an international telecom provider. Effective and efficient escalation of incidents will be crucial to the success of the global mobile VIP service. Staff in GCITS, CruiseAlong Cars and Mobilwork could be involved in escalation. Which is the BEST tool to use, and to whom will it be provided?  
**A.** A stakeholder map, provided to the project manager when approving the design costs.  
**B.** A stakeholder map, provided to the service desk during deployment.  
**C.** A RACI model authority matrix, provided to the project manager when approving the design costs.  
**D.** A RACI model authority matrix, provided to the service desk during deployment.  
**Answer: D**

**NEW QUESTION: 2** When a packet arrives at the gateway, the gateway checks it against the rules in the top Policy Layer, sequentially from top to bottom, and enforces the first rule that matches a packet. Which of the following statements about the order of rule enforcement is true?  
**A.** If the Action is Drop, the gateway applies the Implicit Clean-up Rule for that Policy Layer.  
**B.** If the Action is Accept, the gateway allows the packet to pass through the gateway.  
**C.** If the Action is Accept, the gateway continues to check rules in the next Policy Layer down.  
**D.** If the Action is Drop, the gateway continues to check rules in the next Policy Layer down.  
**Answer: C**

**NEW QUESTION: 3** You are about to activate an application flow when the customer decides to completely redesign the Candidate Information form. However, they want to keep the original form design for reference purposes. What three steps must you take to fulfill their request? (Choose three.)  
**A.** Access the application flow properties.  
**B.** Amend the Candidate Information block properties, substituting the old form with the new form.  
**C.** Create the new form.  
**D.** Deactivate the Career section that will use the application flow.  
**E.** Create a new Candidate Information block.  
**F.** Change the name of the old form.  
**Answer: C,D,F**
