NEW QUESTION: 3 The current implementation of Terraform import can only import resources into the state. It does not generate configuration. **A.** False **B.** True **Answer: B** Explanation: Explanation The current implementation of Terraform import can only import resources into the state. It does not generate configuration. A future version of Terraform will also generate configuration. Because of this, prior to running terraform import it is necessary to write manually a resource configuration block for the resource, to which the imported object will be mapped. While this may seem tedious, it still gives Terraform users an avenue for importing existing resources. <https://www.terraform.io/docs/import/index.html#currently-state-only>
