NEW QUESTION: 1You are designing a custom IAM policy that would allow users to list buckets in S3 only if they are MFA authenticated. Which of the following would best match this requirement?**Answer:** Explanation: The Condition clause can be used to ensure users can only work with resources if they are MFA authenticated. Option B and C are wrong since the aws:MultiFactorAuthPresent clause should be marked as true. Here you are saying that only if the user has been MFA activated, that means it is true, then allow access. Option D is invalid because the "boor clause is missing in the evaluation for the condition clause. Boolean conditions let you construct Condition elements that restrict access based on comparing a key to "true" or "false." Here in this scenario the boor attribute in the condition element will return a value True for option A which will ensure that access is allowed on S3 resources. For more information on an example on such a policy, please visit the following URL:
