**A.** Create an object lifecycle rule using the Age condition and the Delete action. The feature also allows you to lock the data retention policy, permanently preventing the policy from being reduced or removed.B is not correct because object holds can be easily released by operators/admins.C is not correct because an admin can grant themselves or someone else enough rights to tamper with the files in Cloud Storage.D is not correct because Age condition and a Delete action does not prevent objects from being manually deleted before the Age condition is met.
