**NEW QUESTION: 1**Scenario Additional Information Product Description Quality notes from the Daily Log The Director of Information Technology Division (DIT) has been asked to ensure that any changes to the outsourced staff employment contracts adhere to employment law. The DIT will review future job descriptions of the transferred staff before the final contract is signed with the selected service provider. The service level agreement between MFH and the selected service provider will specify the type and quality of service required. The selected service provider must follow the industry standards for providing outsourced services. MFH has a quality management system which contains a document control procedure for all its documentation, however this does not include change management. All project documents will be subject to a quality review. Nominated products will require a formal approval record signed-off by the quality review chair. Extract from the draft Quality Management Strategy (may contain errors) Introduction 1. This document defines the approach to be taken to achieve the required quality levels during the project. 2. The Project Board will have overall responsibility for the Quality Management Strategy. 3. Project Assurance will provide assurance on the implementation of the Quality Management Strategy. Quality management procedure - Quality standards 4. The selected service provider will operate to industry standards for providing outsourced services. 5. MFH document standards will be used. Records 6. A Quality Register will be maintained to record the planned quality events and the actual results from the quality activities. 7. Configuration Item Records will be maintained for each product to describe its status, version and variant. 8. Approval records for products that require them will be stored in the quality database. Roles and responsibilities 9. The DIT will check that the employment contracts for outsourced staff adhere to employment law. 10. Team Managers will provide details of quality checks that have been carried out. 11. Team Managers will ensure that the Quality Register is updated with the names of team members who are involved in the review process. 12. The Senior User will review the Product Descriptions of the products to be produced by the selected service provider to ensure that they can be achieved. None of the reviewers have proof-reading skills. **A.** Ask the reviewers present at the meeting to conduct a proof-reading exercise and pass any comments to the author within 2 days. **B.** Record an action to request that Project Assurance identify a proof-reader who can, within the next 2 days, complete the check for typographical errors. **C.** No action required. **D.** Contact Project Assurance to find appropriate resources to come into the review. **Answer: B**

**NEW QUESTION: 2**When pricing an Intelligent Water solution, what needs to be considered for accurate pricing? **A.** The estimate on customization and integration work **B.** Try to reduce the overall price by leveraging any and all applicable SWG assets for free **C.** If the solution will be used to manage waste or fresh water **D.** Whether the client is responsible for public or private

water management **Answer: C**

**NEW QUESTION: 3** Your network contains an Active Directory domain. You have a print server named Server1 that runs Windows Server 2008 R2. You deploy a new print device and create a shared printer. You need to ensure that only members of a group named Marketing can print color documents on the new print device. All other users must only be able to print black and white documents on the new print device. What should you do? **A.** Modify the Active Directory printer object. **B.** Create a printer port. **C.** Modify the properties of the shared printer. **D.** Create a second shared printer. **Answer: D**
