NEW QUESTION: 1An online retail customer needs daily promotional email content to generate with minimal time spent on creation. Their service contract includes building a custom dynamic template for this purpose. The customer has communicated the following:* The email content will highlight new inventory each day.* A small team will run both their digital marketing operations and their email program.* A user needs to build, test, and send a daily email in less than an hour.* Images for the emails will be hosted on their website CMS. Which question is relevant to identify strategies for designing the custom template for the customer's daily promotional email? Choose 3 answers**A.** Will image URLs be available publicly?**B.** What is the maximum file size of the images being used?**C.** What From Name will be used for these emails?**D.** How often will the layout of the content in a content area change?**E.** How often will email content be image-only with text overlaying images?**Answer: A,B,D**

NEW QUESTION: 2An 802.11b wireless network has a maximum data rate of:**A.** 54 Mbps.**B.** 28 Mbps.**C.** 20 Mbps.**D.** 11 Mbps.**Answer: D**

NEW QUESTION: 3A small retail company recently deployed a new point of sale (POS) system to all 67 stores. The core of the POS is an extranet site, accessible only from retail stores and the corporate office over a split-tunnel VPN. An additional split-tunnel VPN provides bi-directional connectivity back to the main office, which provides voice connectivity for store VoIP phones. Each store offers guest wireless functionality, as well as employee wireless. Only the staff wireless network has access to the POS VPN. Recently, stores are reporting poor response times when accessing the POS application from store computers as well as degraded voice quality when making phone calls. Upon investigation, it is determined that three store PCs are hosting malware, which is generating excessive network traffic. After malware removal, the information security department is asked to review the configuration and suggest changes to prevent this from happening again. Which of the following denotes the BEST way to mitigate future malware risk?**A.** Deploy a proxy server with content filtering at the corporate office and route all traffic through it.**B.** Move to a VDI solution that runs offsite from the same data center that hosts the new POS solution.**C.** Deploy new perimeter firewalls at all stores with UTM functionality.**D.** Change antivirus vendors at the store and the corporate office.**Answer: C**
Explanation:A perimeter firewall is located between the local network and the Internet where it can screen network traffic flowing in and out of the organization. A firewall with unified threat management (UTM) functionalities includes anti-malware capabilities.
