Our NSE6_FWF-6.4 practice torrent offers you the realistic and accurate simulations of the real test.

NEW QUESTION: 1 Videokonferenzen, elektronische Kalender und elektronische Abstimmungen sind Beispiele für:
A. Tools für die Zusammenarbeit.
B. Wissensmanagement-Tools.
C. Textverarbeitungswerkzeuge.
D. Zuordnungswerkzeuge.
Answer: A

NEW QUESTION: 2 Your network contains an Active Directory forest. The forest schema contains a custom attribute for user objects. You need to give the human resources department a file that contains the last logon time and the custom attribute values for each user in the forest. Which should you use?
A. the Get-ADUser cmdlet
B. the net.exe user command
C. the dsquery tool
D. the Export-CSV cmdlet
Answer: A

NEW QUESTION: 3 Give:
Class Employee {
public int checkEmail() { /* ... */ }
public void sendEmail (String email) { /* ... */ }
public Boolean validDateEmail() { /* ... */ }
public void printLetter (String letter) { /* ... */ }
}
Which is correct?
A. Employee "has-an" Email.
B. Employee has low cohesion.
C. Employee "is-a" LetterPrinter.
D. Employee takes advantage of composition.
Answer: B
Explanation: The relationship between Employee and e-mail is poorly implemented here. There is low cohesion. Note: Low cohesion is associated with undesirable traits such as being difficult to maintain, difficult to test, difficult to reuse, and even difficult to understand. Cohesion is decreased if: The functionalities embedded in a class, accessed through its methods, have little in common. Methods carry out many varied activities, often using coarsely-grained or unrelated sets of data. Disadvantages of low cohesion (or "weak cohesion") are: Increased difficulty in understanding modules. Increased difficulty in maintaining a system, because logical changes in the domain affect multiple modules, and because changes in one module require changes in related modules. Increased difficulty in reusing a module because most applications won't need the random set of operations provided by a module. Reference: Cohesion (computer science)
