NEW QUESTION: 3Micha is the project manager for her project. Micha is now ready to complete the scope verification process so that she can move the project into the project closing process. What is the primary purpose of the validate scope process?**A.** Approval that the project has met its objectives**B.** Review of the project performance**C.** Acceptance of the project team's performance**D.** Acceptance of the project deliverables**Answer: D****Explanation:**
Explanation/Reference:Explanation:Answer option C is correct.Validate scope process is a customer-driven process that inspects the project deliverables with a focus on accepting the project deliverables.Answer option D is incorrect. The project objectives may go beyond the project scope, consider time, cost, and quality requirements.Project scopeProject scope defines what will or will not be included in a project. Therefore, the project scope is the number and complexity of tasks to be performed by a software solution. The scope comprises the overall project requirements and incorporates the constraints imposed on the project by resources, time, and other limiting factors.Answer option B is incorrect. The review of the project performance is part of the project's closing process, not the scope verification process. Answer option A is incorrect. The assessment of the project team member's performance is defined in the human resources management plan and is not part of the scope verification process.Reference: The Project Management Body of Knowledge, Fifth edition, Section 5.5, Page 133 Chapter: Project Charter and Scope Management Objective: Scope Verification and Control
