WHY CHOOSE Secure-Software-Design EXAM TRAINING, Responsible company with great exam questions.

NEW QUESTION: 1 A. Option DB. Option CC. Option AD. Option B **Answer: A**

NEW QUESTION: 2 Julia is a senior security analyst for Berber Consulting group. She is currently working on a contract for a small accounting firm in Florida. They have given her permission to perform social engineering attacks on the company to see if their in-house training did any good. Julia calls the main number for the accounting firm and talks to the receptionist. Julia says that she is an IT technician from the company's main office in Iowa. She states that she needs the receptionist's network username and password to troubleshoot a problem they are having. Julia says that Bill Hammond, the CEO of the company, requested this information. After hearing the name of the CEO, the receptionist gave Julia all the information she asked for. What principal of social engineering did Julia use? **A. Friendship/Liking B. Scarcity C. Social Validation D. Reciprocation** **Answer: D**

NEW QUESTION: 3 Which statement describes how the digit zero is handled in the predefined restriction tables in Cisco Unity Connection?
A. Zero is listed in the Default Out-Dial Restriction table.
B. Zero is not listed in any default restriction table configuration.
C. Zero is listed in the Default Transfer Restriction table.
D. Zero is listed in the Default System Transfer Restriction table.
E. Zero is listed in the User-Defined and Automatically Added Alternate Extensions Restriction table.
Answer: B
Explanation: Explanation/Reference: Explanation: When user dials "0", by default Unity Connection treats it as an operator call and does not block "0" by any restriction table configuration. Only the operator can modify transfer extension associated with operator call.
