Photoexperienceacademy Test Engine presents the finest set of PCNSC Practice test for IT professionals to consolidate their learning and assist them to pass the certification exams.

We here tell you that there is no need to worry about.

NEW QUESTION: 1The main purpose of this story is to appeal to the reader's interest in a subject which has been the theme of some of the greatest writers, living and dead--but which has never been, and can never be, exhausted, because it is a subject eternally interesting to all mankind. Here is one more book that depicts the struggle of a human creature, under those opposing influences of Good and Evil, which we have all felt, which we have all known. It has been my aim to make the character of "Magdalen," which personifies this struggle, a pathetic character even in its perversity and its error; and I have tried hard to attain this result by the least obtrusive and the least artificial of all means--by a resolute adherence throughout to the truth as it is in Nature. This design was no easy one to accomplish; and it has been a great encouragement to me (during the publication of my story in its periodical form) to know, on the authority of many readers, that the object which I had proposed to myself, I might, in some degree, consider as an object achieved. Round the central figure in the narrative other characters will be found grouped, in sharp contrast--contrast, for the most part, in which I have endeavored to make the element of humor mainly predominant. I have sought to impart this relief to the more serious passages in the book, not only because I believe myself to be justified in doing so by the laws of Art--but because experience has taught me (what the experience of my readers will doubtless confirm) that there is no such moral phenomenon as unmixed tragedy to be found in the world around us. Look where we may, the dark threads and the light cross each other perpetually in the texture of human life. Why does the author believe he is justified in using humor in the work being referenced? **A.** just to show that he can master both the serious and humorous aspects of writing and to do so in a singular work is commendable **B.** because the human characteristics of Magdalen have to show both sides of humanity to be truly representative and accepted as realistic by the reader **C.** because this art must represent life and life is humorous **D.** only because it is his artistic freedom to do so **E.** because there are no pure lines between Good and Evil or humor and tragedy **Answer: E** Explanation: Explanation/Reference: The author tells us that he believes that "there is no such moral phenomenon as unmixed tragedy to be found in the world around us" meaning that there are no pure lines between Good and Evil or humor and tragedy.

NEW QUESTION: 2To guarantee proper cooling, you plan to place perforated floor tiles near your Database Machine. Where, in relation to the cabinet, should they be placed? **A.** At the back,

because the air flow is from back to front**B.** On the left side, because the air flow is from left to right**C.** Underneath the cabinet, because the air flow is from bottom to top**D.** On the right side, because the air flow is from right to left.**E.** At the front, because the air flow is from front to back
Answer: EExplanation:Airflow must be front-to-back.Reference: Oracle White Paper,ORACLE Exadata DatabaseMachine X3-8

NEW QUESTION: 3Which statement about a Cisco APIC controller versus a more traditional SDN controller is true?**A.** APIC uses an imperative model**B.** APIC does support a Southbound REST API**C.** APIC supports OpFlex as a Northbound protocol**D.** APIC uses a policy agent to translate policies into instructions**Answer: D**Explanation:The southbound protocol used by APIC is OpFlex that is pushed by Cisco as the protocol for policy enablement across physical and virtual switches.Southbound interfaces are implemented with some called Service Abstraction Layer (SAL), which talks to the network elements via SNMP and CLI.Note: Cisco OpFlex is a southbound protocol in a software-defined network (SDN).

NEW QUESTION: 4Which two characteristics describe the difference between MPLS QoS pipe and short-pipe models? (Choose two)**A.** Short-pipe mode can be implemented on MPLS networks regardless of the MPLS PHP mechanism usage.**B.** Short-pipe mode does not need MPLS usage, but pipe mode does.**C.** Pipe mode does guarantee that the tunneled packet marking remains unchanged, but short-pipe does not.**D.** In short-pipe mode, the egress LSR uses the LSP PHB marking, but in pipe mode, the egress LSR uses the tunneled PHB marking.**E.** In short-pipe mode, the egress LSR uses the tunneled PHB marking, but in pipe mode, the egress LSR uses the LSP PHB marking.**Answer: A,E**
