NEW QUESTION: 3You have a System Center 2012 R2 Configuration Manager Service Pack 1 (SP1) deployment that contains 8,000 client computers.When a custom application named App1.exe is installed on a computer, a registry value of App1=TRUE is added to the registry. App1 is installed on approximately half of the computers.You need to recommend a solution for creating a collection named Collection1 that contains only computers on which App1.exe is installed. The solution must minimize administrative effort.What should you include in the recommendation?**A. a configuration itemB. the custom client device settingsC. a collection that has a direct membership ruleD. a software categoryAnswer: C**Explanation:Membership rule of the direct rule type let you choose the users or computers that you want to add as members to a collection. This rule gives you direct control over which resources are members of the collection. This membership does not change unless a resource is removed from Configuration Manager. Configuration Manager must have discovered the resources or you must have imported the resources before you can add them to a direct rule collection. Direct rule collections have a higher administrative overhead than query rule collections because you must make changes to this collection type manually.Reference: How to Create Collections in Configuration Manager<https://technet.microsoft.com/en-us/library/gg712295.aspx>
