At the same time, our prices are not always invariable, Obtaining C-ACT-2403 means you have access to large influential IT companies and work with IT elites.

NEW QUESTION: 1An end-user at a company is concerned about the validity of the amounts throughout the report. Within FSR, which rule can be used to reconcile the accuracy of the numbers in the report?**A.** The user can create a validation rule to verify the accuracy of the amounts in the report.**B.** The user can use the audit trail feature to reconcile the numbers in the report.**C.** The checks must be performed manually by the user.**D.** The user can create a workflow rule to ensure that the numbers match in the report.**Answer: A**

NEW QUESTION: 2An administrator notices that 8 out of 10 virtual machines have memory ballooning and swapping. However, virtual machine 9 is not ballooning or swapping and virtual machine 10 is not ballooning but is swapping. Which two statements explain the behavior of virtual machine 9 and virtual machine 10? (Choose two.)**A.** Virtual machine 9 has a 100% memory reservation.**B.** Virtual machine 9 has memory shares set to HIGH.**C.** Virtual machine 10 has a memory limit configured.**D.** Virtual machine 10 does not have VMware Tools enabled or installed.**Answer: A,C****Explanation:**Explanation/Reference:Explanation:It seems that VM 9 has 100% memory reservation and VM 10 has a memory limit configured.

NEW QUESTION: 3You are a licensing specialist. Your customer is Contoso Pharmaceuticals, a growing pharmaceutical company. Company Background Contoso Pharmaceuticals has two divisions in the United States, one division in Switzerland, and two divisions in England. The company is purchasing a small competitor in Germany that has a Select License agreement at Level A for applications and systems. The agreement includes Software Assurance Membership. In the past year, Contoso Pharmaceuticals expanded much more rapidly than it had anticipated. The company's growth will likely continue. Additional competitors might be acquired. Network Description The Contoso Pharmaceuticals network contains 11,500 desktops. The desktops run Microsoft Windows XP Professional. Desktops in most locations run Microsoft Office Professional. Desktops in some locations run third-party applications. The company network contains Microsoft Exchange servers and Microsoft Windows servers. Current Licensing Solution Contoso Pharmaceuticals holds a Select 6.x License agreement. When the company entered the Select License agreement, the number of forecasted purchases qualified Contoso Pharmaceuticals for the Level B discount in applications and systems. As the company approaches its first anniversary, it has accumulated 20,000 points in the Applications pool and 12,000 points in the Systems pool. Business Goals Each division plans and budgets its own software purchases. This purchase model works for Contoso Pharmaceuticals, but the executive team wants to look for ways to optimize the company's information technology (IT)

investments and to ensure a more predictable budget. The executive team is evaluating whether it should manage the IT environment and budget for the entire enterprise and standardize all desktops to use the same applications and operating systems. The team wants to save money and to ensure that collaboration among divisions and locations is more efficient. The team does not know if the benefits of standardization will outweigh the costs of training end users and the IT department to use the new software. End of repeated scenario You need to identify a future event in Contoso Pharmaceuticals environment that would cause the company to consider a licensing program change. Which event should you identify? **A.** The company accumulates enough points to qualify for a Level C discount. **B.** The company acquires additional divisions. **C.** The company moves to a centralized decision-making model and budget-control model. **D.** The company standardizes on a single desktop operating system.

Answer: C
