For some relating medium- and high-level managerial positions HFCEP certification will be stepping stone to better development, Now, I hope Photoexperienceacademy will send you to the path of success.

But we can guarantee that our HFCEP real exam crams are reliable, Although it is not an easy thing for somebody to pass the exam, but our HFCEP exam torrent can help aggressive people to achieve their goals.

All our HFCEP study materials are displayed orderly on the web page.

**NEW QUESTION: 1** Click to expand each objective. To connect to the Azure portal, type <https://portal.azure.com> in the browser address bar. When you are finished performing all the tasks, click the 'Next' button. Note that you cannot return to the lab once you click the 'Next' button. Scoring occurs in the background while you complete the rest of the exam. Overview The following section of the exam is a lab. In this section, you will perform a set of tasks in a live environment. While most functionality will be available to you as it would be in a live environment, some functionality (e.g., copy and paste, ability to navigate to external websites) will not be possible by design. Scoring is based on the outcome of performing the tasks stated in the lab. In other words, it doesn't matter how you accomplish the task, if you successfully perform it, you will earn credit for that task. Labs are not timed separately, and this exam may have more than one lab that you must complete. You can use as much time as you would like to complete each lab. But, you should manage your time appropriately to ensure that you are able to complete the lab(s) and all other sections of the exam in the time provided. Please note that once you submit your work by clicking the Next button within a lab, you will NOT be able to return to the lab. To start the lab You may start the lab by clicking the Next button. You plan to migrate a large amount of corporate data to Azure Storage and to back up files stored on old hardware to Azure Storage. You need to create a storage account named corpdata7523690n1 in the corpdatalog7523690 resource group. The solution must meet the following requirements: Corpdata7523690n1 must be able to host the virtual disk files for Azure virtual machines. The cost of accessing the files must be minimized. Replication costs must be minimized. What should you do from the Azure portal? **Answer:** Explanation: See solution below. Explanation Step 1: In the Azure portal, click All services. In the list of resources, type Storage Accounts. As you begin typing, the list filters based on your input. Select Storage Accounts. Step 2: On the Storage Accounts window that appears, choose Add. Step 3: Select the subscription in which to create the storage account. Step 4: Under the Resource group field, select corpdatalog7523690. Step 5: Enter a name for your storage account: corpdata7523690n1 Step 6: For Account kind select: General-purpose v2 accounts (recommended for most scenarios) General-purpose v2 accounts is recommended for most scenarios. . General-purpose v2 accounts deliver the lowest per-gigabyte capacity prices for Azure Storage, as well as industry-competitive transaction prices. Step 7: For replication select: Read-access geo-redundant storage (RA-GRS) Read-access geo-redundant storage (RA-GRS) maximizes availability for your storage account. RA-GRS provides read-only access to the data in the secondary location, in addition to geo-replication across two regions. References: <https://docs.microsoft.com/en-us/azure/storage/common/storage-quickstart-create-account> <https://docs.microsoft.com/en-us/azure/storage/common/storage-account-overview>

**NEW QUESTION: 2** A user is creating a CloudFormation stack. Which of the below mentioned limitations does not hold true for CloudFormation? **A.** The user can use 60 parameters and 60 outputs in a single template **B.** One account by default is limited to 20 stacks **C.** One account by default is limited to 100 templates **D.** The template, parameter, output, and resource

description fields are limited to 4096 characters **Answer: C** Explanation: AWS CloudFormation is an application management tool which provides application modelling, deployment, configuration, management and related activities. The limitations given below apply to the CloudFormation template and stack. There are no limits to the number of templates but each AWS CloudFormation account is limited to a maximum of 20 stacks by default. The Template, Parameter, Output, and Resource description fields are limited to 4096 characters. The user can include up to 60 parameters and 60 outputs in a template.

**NEW QUESTION: 3** The Forecast Category on the Opportunity record maps directly, on a one-to-one basis, to the aggregates on the Forecast tab. **A. False B. True Answer: A**
