Here, our E-HANA-AW-18 latest exam torrent is the right study material for you to choose, At the same time, you can interact with other customers about SAP Certified Development Specialist - ABAP for SAP HANA 2.0 exam, which is beneficial to you study.

Our E-HANA-AW-18 learning materials can be applied to different groups of people, The training materials of our website are very comprehensive and include the latest E-HANA-AW-18 free dumps service.

Actually, passing the E-HANA-AW-18 exam is a difficult thing, not to mention gaining a high score.

**NEW QUESTION: 1** A security administrator needs to image a large hard drive for forensic analysis. Which of the following will allow for faster imaging to a second hard drive?  
**A.** `cp /dev/sda /dev/sdb bs=8k`  
**B.** `tail -f /dev/sda > /dev/sdb bs=8k`  
**C.** `dd in=/dev/sda out=/dev/sdb bs=4k`  
**D.** `locate /dev/sda /dev/sdb bs=4k`  
**Answer: C**  
**Explanation:** `dd` is a command-line utility for Unix and Unix-like operating systems whose primary purpose is to convert and copy files. `dd` can duplicate data across files, devices, partitions and volumes. On Unix, device drivers for hardware (such as hard disks) and special device files (such as `/dev/zero` and `/dev/random`) appear in the file system just like normal files; `dd` can also read and/or write from/to these files, provided that function is implemented in their respective driver. As a result, `dd` can be used for tasks such as backing up the boot sector of a hard drive, and obtaining a fixed amount of random data. The `dd` program can also perform conversions on the data as it is copied, including byte order swapping and conversion to and from the ASCII and EBCDIC text encodings. An attempt to copy the entire disk using `cp` may omit the final block if it is of an unexpected length; whereas `dd` may succeed. The source and destination disks should have the same size.

**NEW QUESTION: 2** Which statement is false with respect to Dashboards?  
**A.** Multiple Analyses can be arranged into different columns and sections with different sizes on a dashboard.  
**B.** All the Analyses placed on a dashboard must be sourced from the same subject area.  
**C.** Prompts on the dashboards can be shared between different pages of a dashboard.  
**D.** Options for the Export and Refresh report links can be enabled globally at the dashboard level.  
**Answer: D**

**NEW QUESTION: 3** An internal audit has identified major weaknesses over IT processing. Which of the following should an information security manager use to BEST convey a sense of urgency to management?  
**A.** Risk assessment reports  
**B.** Return on security investment report  
**C.** Business impact analysis (BIA)  
**D.** Security metrics reports  
**Answer: A**  
**Explanation:** Performing a risk assessment will allow the information security manager to prioritize the remedial measures and provide a means to convey a sense of urgency to management. Metrics reports are normally contained within the methodology of the risk

assessment to give it credibility and provide an ongoing tool. The business impact analysis (BIA) covers continuity risks only. Return on security investment cannot be determined until a plan is developed based on the BIA.

**NEW QUESTION:** 4What command displays manual pages? (Specify ONLY the command without any path or parameters.)**Answer:** Explanation:man
