NEW QUESTION: 2

企業が複数のAWSリージョンでWebサーバーをプロビジョニングする場合、何が増加しますか？ **A.** 耐久性 **B.** セキュリティ **C.** 可用性 **D.** カップリング **Answer: C**

NEW QUESTION: 3 A computer network, often simply referred to as a network, is a collection of computers and devices connected by communications channels that facilitates communications among users. What are the benefits of a computer network? Each correct answer represents a complete solution. Choose all that apply. **A.** The functionality of all client computers on the network depend on the main server computer. **B.** In a network environment, system maintenance can be performed from one central location. **C.** Computers which are connected through a network can share resources as hard drives, printers, scanners, etc. with each other. **D.** A user can send files from one computer to another quite easily. **Answer: B,C,D** Explanation: A computer network, often simply referred to as a network, is a collection of computers and devices connected by communications channels that facilitates communications among users and allows users to share resources with other users. Some of the benefits of a computer network are as follows: Computers which are connected through a network can share resources as hard drives, printers, scanners, etc. with each other. A user can send files from one computer to another quite easily. A user can connect all the computers which are connected through a network to the internet by using a single line. So it means that one can save the connection cost for each computer but your internet connection must be fast. If a user wants to access data from another computer which is the part of network then he can access data from that computer. Users can run those programs which are not installed on their computers but are installed on any other user's computer. In a network environment, administrators can take backups from one central location of all computers that are on the network. In a network environment, system maintenance can be performed from one central location.

NEW QUESTION: 4 NAT types include (). (Select 3 answers) **A.** Static NAT **B.** Port mapping **C.**

Protocol mappingD. Dynamic NATAnswer: A,B,D
