NEW QUESTION: 1 Sie müssen einem Benutzer einen benannten Benutzer1-Zugriff gewähren, um Compliance-Berichte aus den Security & Compliance-Berichten aus dem Security & Compliance Admin Center herunterzuladen. Die Lösung muss das Prinzip des geringsten Privilegs anwenden. Was sollte man tun? **A.** Fügen Sie Benutzer1 zur Rollengruppe "Compliance-Administrator" hinzu. **B.** Fügen Sie Benutzer1 zur Rollengruppe "Service Assurance-Benutzer" hinzu. **C.** Fügen Sie User1 zur Rollengruppe Security Reader hinzu. **D.** Erstellen Sie eine neue Rollengruppe mit der Rolle Vorschau und fügen Sie der Rollengruppe Benutzer1 hinzu. **Answer: C** Explanation: Topic 1, A. Datum Overview Existing Environment This is a case study Case studies are not timed separately. You can use as much exam time as you would like to complete each case. However, there may be additional case studies and sections on this exam. You must manage your time to ensure that you are able to complete all questions included on this exam in the time provided. To answer the questions included in a case study, you will need to reference information that is provided in the case study. Case studies might contain exhibits and other resources that provide more information about the scenario that is described in the case study. Each question is independent of the other questions in this case study. At the end of this case study, a review screen will appear. This screen allows you to review your answers and to make changes before you move to the next section of the exam. After you begin a new section, you cannot return to this section. To start the case study To display the first question in this case study, click the button. Use the buttons in the left pane to explore the content of the case study before you answer the questions. Clicking these buttons displays information such as business requirements, existing environment, and problem statements. When you are ready to answer a question, click the Current Infrastructure A . Datum recently purchased a Microsoft 365 subscription. All user files are migrated to Microsoft 365. All mailboxes are hosted in Microsoft 365. The users in each office have email suffixes that include the country of the user, for example, [email#160;protected] or user2#uk.ad3tum.com. Each office has a security information and event management (SIEM) appliance. The appliances come from three different vendors. A . Datum uses and processes Personally Identifiable Information (PII). Problem Statements Requirements A . Datum entered into litigation. The legal department must place a hold on all the documents of a user named User1 that are in Microsoft 365. Business Goals A . Datum warns to be fully compliant with all the relevant data privacy laws in the regions where it operates. A . Datum wants to minimize the cost of hardware and software whenever possible. Technical Requirements A . Datum identifies the following technical

requirements: * Centrally perform log analysis for all offices. * Aggregate all data from the SIEM appliances to a central cloud repository for later analysis. * Ensure that a SharePoint administrator can identify who accessed a specific file stored in a document library. * Provide the users in the finance department with access to Service assurance information in Microsoft Office365. * Ensure that documents and email messages containing the PII data of European Union (EU) citizens are preserved for 10 years. * If a user attempts to download 1,000 or more files from Microsoft SharePoint Online within 30 minutes, notify a security administrator and suspend the user's user account. * A security administrator requires a report that shows which Microsoft 365 users signed in Based on the report, the security administrator will create a policy to require multi-factor authentication when a sign in is high risk. * Ensure that the users in the New York office can only send email messages that contain sensitive US. PII data to other New York office users. Email messages must be monitored to ensure compliance. Auditors in the New York office must have access to reports that show the sent and received email messages containing sensitive U.S. PII data.

NEW QUESTION: 2 You need to display the values for the Document Status and Department properties. You configure variations on the site. Does the solution meet the goal? **A. No B. Yes**
Answer: A Explanation: Explanation/Reference: Explanation: The requirement is to change the values of metadata field settings from a single location and changes to the settings should be applied to all the site collections and existing documents. So Term Set and Managed Metadata column is the preferred way to implement the Document Status and Department properties.

NEW QUESTION: 3 Which three are optional extensions of the Frame Relay Local Management Interface specification? (Choose three) **A. Permanent virtual circuit B. Simple flow control C. Virtual circuit status D. Switched virtual circuit E. Multicasting**
Answer: B, C, E Explanation: Optional LMI Extensions: The LMI specification also defines several optional extensions: * Global addressing convention * Multicast capability * A simple flow control mechanism * Ability for the network to communicate a PVC's CIR to the subscriber in a Status message * A new message type that allows the network to announce PVC status changes without prompting from the subscriber Implementors may build any, all, or none of these features into their networks.
