E. shows the navigator facet automatically in landscape mode
Answer: B,D,E

NEW QUESTION: 2 You have a series of analytic data models and reports that provide insights into the participation rates for sports at different schools. Users enter information about sports and participants into a client application. The application stores this transactional data in a Microsoft SQL Server database. A SQL Server Integration Services (SSIS) package loads the data into the models. When users enter data, they do not consistently apply the correct names for the sports. The following table shows examples of the data entry issues. You need to improve the quality of the data. Which four actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.
Answer: Explanation: Explanation
