Sometimes, we will also launch some preferential activities to thanks our customers, What's more, there is no limitation on our 300-615 software version about how many computers our customers [Certification MuleSoft-Integration-Architect-I Sample Questions](#) used to download it, but it can only be operated under the Windows operation system.

The satisfactory price, Our system will send **Lab 300-615 Questions** the update version to you automatically, We are aware that the IT industry is a new industry, All the staff members are devoted **Lab 300-615 Questions** to improve the quality of the Troubleshooting Cisco Data Center Infrastructure exam products and the after-sales service.

Moreover, we offer many discounts to help you for second **Lab 300-615 Questions** purchase and we launch these benefits at intervals for regular customers and treat them as close friends.

**NEW QUESTION: 1**What is true about the Cisco IOS Resilient Configuration feature?**A.** There is additional space required to secure the primary Cisco IOS Image file**B.** Remote storage is used for securing files**C.** The feature can be disabled through a remote session**D.** The feature automatically detects image and configuration version mismatch**Answer: D****Explanation:** ExplanationThe following factors were considered in the design of Cisco IOS Resilient Configuration:

- + The configuration file in the primary bootset is a copy of the running configuration that was in the router when the feature was first enabled.
- + The feature secures the smallest working set of files to preserve persistent storage space. No extra space is required to secure the primary Cisco IOS image file.
- + The feature automatically detects image or configuration version mismatch .
- + Only local storage is used for securing files, eliminating scalability maintenance challenges from storing multiple images and configurations on TFTP servers.
- + The feature can be disabled only through a console session

**NEW QUESTION: 2**What influences decisions regarding criticality of assets?**A.** The business impact analysis**B.** The business criticality of the data to be protected**C.** The business criticality of the data to be protected, and the scope of the impact upon the organization as a whole**D.** Internal corporate politics**Answer: C****Explanation:** Explanation/Reference: Explanation: Criticality of assets is often influenced by the business criticality of the data to be protected and by the scope of the impact upon the organization as a whole. For example, the loss of a network backbone creates a much greater impact on the organization as a whole than the loss of data on a typical user's workstation.

**NEW QUESTION: 3**Refer to the exhibit. The HQ site uses area code 650. The BR1 site uses area code 408. The long distance national code for PSTN dialing is 1. To make a long distance national call, an HQ or BR1 user dials access code 9, followed by 1, and then the 10-digit number. Both sites use MGCP gateways. AAR must use globalized call routing using a single route pattern. Assume that all outgoing PSTN numbers are localized at the egress gateway as shown in the exhibit. Which statement is true?**A.** The AAR group system must be configured under the AAR service parameters.**B.** The AAR group system must be configured on the line configuration of the phones.**C.** The single AAR group system cannot be used. A second AAR group must be configured in order to have source and destination AAR groups.**D.** The AAR group system must be configured on the device configuration of the phones.**Answer: B**
