You are not required to alter any of these parameters, but some interface parameters must be consistent across all routers in an attached network. Those parameters are controlled by the ip ospf hello-interval, ip ospf deadinterval, and ip ospf authentication-key commands. Therefore, be sure that if you do configure any of these parameters, the configurations for all routers on your network have compatible values.In interface configuration mode, use any of the following commands to specify interface parameters as needed for your network: Reference http://www.cisco.com/en/US/docs/ios/12_0/np1/configuration/guide/1cospf.html#wp4937
