NEW QUESTION: 3You have an Exchange Server 2013 organization.You plan to use document fingerprinting.You need to identify which file type cannot be used as a template for document fingerprinting.Which document type should you identify?**A.** .doc**B.** .dotx**C.** .txt**D.** .pptx**Answer: B**
BExplanation:Document Fingerprinting supports the same file types that are supported in transport rules. One quick note about file types: neither transport rules nor Document Fingerprinting supports the .dotx file type, which can be confusing because that's a template file in Word. When you see the word "template" in this and other Document Fingerprinting topics, it refers to a document that you have established as a standard form, not the template file type.Reference: Document Fingerprinting
