**NEW QUESTION: 4**Which of the following statements describes the relationship between Cloud computing and Grid computing?  
**A.** Grid architectures are likely to be used in building Clouds  
**B.** Grid computing is the same as Cloud computing  
**C.** Grid computing is an evolution of the Cloud computing architecture

Because grid computing provides superior flexibility, it is the natural architectural foundation for both utility and cloud computing.Reference: Oracle White Paper, Oracle Grid Computing
