NEW QUESTION: 1A. Option CB. Option DC. Option AD. Option B**Answer: D****Explanation:** ExplanationThe AWS documentation mentions the followingAs your infrastructure grows, common patterns can emerge in which you declare the same components in each of your templates. You can separate out these common components and create dedicated templates for them. That way, you can mix and match different templates but use nested stacks to create a single, unified stack. Nested stacks are stacks that create other stacks. To create nested stacks, use the AWS:: CloudFormation::Stack resource in your template to reference other templates.For more information on CloudFormation best practices, please visit the below url <http://docs.aws.amazon.com/AWSCloudFormation/latest/UserGuide/best-practices.html>
