Whereas, the C_THR88_2405 practice test software simulates the real C_THR88_2405 exam scenario, where you can practice for the actual SAP exam.

NEW QUESTION: 1Which guideline for SAN and NAS storage arrays is true?**A.** Adapters for storage access do not follow hardware rules.**B.** Cisco UC apps use a 24 kilobyte block size to determine bandwidth needs.**C.** Design your deployment in accordance with the Cisco UCS high availability guideline.**D.** Ethernet ports for LAN access and Ethernet ports for storage may only be separate.**Answer: D**

NEW QUESTION: 2You are the business analyst for your organization and are working on prioritizing requirements.What plan should guide you through this process?**A.** Requirements management plan**B.** Project management plan**C.** Risk management plan**D.** Scope management plan**Answer: A**

NEW QUESTION: 3Which of the following should be followed before connecting to Amazon Virtual Private Cloud (Amazon VPC) using AWS Direct Connect?**A.** Create a virtual private gateway and attach it to your Virtual Private Cloud (VPC).**B.** Allocate a private IP address to your network in the 122.x.x.x range.**C.** Provide a public IP address for each Border Gateway Protocol (BGP) session.**D.** Provide a public Autonomous System Number (ASN) to identify your network on the Internet.**Answer: A**
Explanation:ExplanationTo connect to Amazon Virtual Private Cloud (Amazon VPC) by using AWS Direct Connect, you must first do the following:Provide a private Autonomous System Number (ASN) to identify your network on the Internet. Amazon then allocates a private IP address in the 169.x.x.x range to you. Create a virtual private gateway and attach it to your VPC.

NEW QUESTION: 4 DRAG DROP You have a desktop computer and a tablet that both run Windows 10 Enterprise. The desktop computer is located at your workplace and is a member of an Active Directory domain. The network contains an Application Virtualization (App-V) infrastructure. Several App-V applications are deployed to all desktop computers. The tablet is located at your home and is a member of a workgroup. Both locations have Internet connectivity. You need to be able to access all applications that run on the desktop computer from your tablet. Which actions should you perform on each computer? To answer, drag the appropriate action to the correct computer. Each action may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content. Select and Place: **Answer:** Explanation: Explanation/Reference: Explanation: You can connect to your work computer by using Remote Desktop. You first need to enable Remote Desktop on the work computer. You then run the Remote Desktop Client on the home computer to connect to the work computer. With Remote Desktop Connection, you can connect to a computer running Windows from another computer running Windows that's connected to the same network or to the Internet. For example, you can use all of your work computer's programs, files, and network resources from your home computer, and it's just like you're sitting in front of your computer at work. To connect to a remote computer, that computer must be turned on, it must have a network connection, Remote Desktop must be enabled, you must have network access to the remote computer (this could be through the Internet), and you must have permission to connect. For permission to connect, you must be on the list of users. Before you start a connection, it's a good idea to look up the name of the computer you're connecting to and to make sure Remote Desktop connections are allowed through its firewall. **Incorrect Answers:** Remote assistance is not required. This enables remote users to connect to a computer for 'assistance'. APP-V is not required. The App-V client is already running on the work computer and the App-V packages have already been deployed to the work computer.
