The C_TS422_2023 learning materials from our company are very convenient for all people, including the convenient buying process, the download way and the study process and so on.

Or you could send C_TS422_2023 test questions to our after-sale email, to contact us via email, And with scientific design concept, they've designed C_TS422_2023 training material with all common questions types, conforming to people's understanding and memory.

No matter which country or region you are in, our C_TS422_2023 exam questions can provide you with thoughtful services to help you pass exam successfully for our C_TS422_2023 study materials are global and warmly praised by the loyal customers all over the world.

NEW QUESTION: 1What type of process control is Scrum?**A.** Inspection**B.** Adaptive**C.** Empirical**D.** Classical**Answer: C**

NEW QUESTION: 2You work as an Office Assistant for Media Perfect Inc. You have created a spreadsheet in Excel 2010 and shared it with the other employees of the company. You want to protect the worksheet and locked cells by permitting or prohibiting other employees to select, format, insert, delete, sort, or edit areas of the spreadsheet. Which of the following options will you use to accomplish the task?**A.** Protect Current Sheet**B.** Protect Workbook Structure**C.** Encrypt with Password**D.** Mark as Final**Answer: A****Explanation:**Explanation/Reference: Explanation:The various Protect Workbook options are as follows:1. Mark as Final: This option is used to make the document read-only. When a spreadsheet is marked as final, various options such as typing, editing commands, and proofing marks are disabled or turned off and the spreadsheet becomes read-only. This command helps a user to communicate that he is sharing a completed version of a spreadsheet. This command also prevents reviewers or readers from making inadvertent modifications to the spreadsheet.2. Encrypt with Password: When a user selects the Encrypt with Password option, the Encrypt Document dialog box

appears. In the Password box, it is required to specify a password. Microsoft is not able to retrieve lost or forgotten passwords, so it is necessary for a user to keep a list of passwords and corresponding file names in a safe place.3. Protect Current Sheet: This option is used to select password protection and permit or prohibit other users to select, format, insert, delete, sort, or edit areas of the spreadsheet. This option protects the worksheet and locked cells.4. Protect Workbook Structure: This option is used to select password protection and select options to prevent users from changing, moving, and deleting important data. This feature enables a user to protect the structure of the worksheet.5. Restrict Permission by People: This option works on the basis of Window Rights Management to restrict permissions. A user is required to use a Windows Live ID or a Microsoft Windows account to restrict permissions. These permissions can be applied via a template that is used by the organization in which the user is working. These permissions can also be added by clicking Restrict Access.6. Add a Digital Signature: This option is used to add a visible or invisible digital signature. It authenticates digital information such as documents, e-mail messages, and macros by using computer cryptography. These signatures are created by specifying a signature or by using an image of a signature for establishing authenticity, integrity, and non-repudiation.

NEW QUESTION: 3 Which feature allows Cisco storage networking solutions to operate with Brocade and legacy McData switches? Select the best response. **A.** Because Fibre Channel is based on a set of open standards, Cisco solutions are fully compatible with other Fibre Channel devices. **B.** Cisco storage networking devices can run either the Cisco MDS SAN-OS or Cisco NX-OS PassGuide.com-Make You Succeed To Pass IT Exams PassGuide 646-985 operating system to match the operating systems that are running on devices from other vendors. **C.** Interoperability modes allow VSANs to be propagated from the Cisco MDS to other Fibre Channel devices. **D.** Line card expansion modules may have Fibre Channel ports, 10 Gigabit Ethernet ports, or a combination of both to accommodate switches from other vendors. **Answer: C** Explanation: Section: (none)

NEW QUESTION: 4 What is the function of an SAP HANA Live private view? **A.** To encapsulate SQL transformations on one or several database tables. **B.** To provide the value list for a specific business entity. **C.** To provide a direct interface to an analytical application. **D.** To expose the business data in SAP Business Suite systems. **Answer: A**
