NEW QUESTION: 1 Which of the following is a benefit of using callback devices?
A. Allow call forwarding
B. Provide an audit trail
C. Can be used in a switchboard environment
D. Permit unlimited user mobility
Answer: B
Explanation: Explanation/Reference: Explanation: A callback feature hooks into the access control software and logs all authorized and unauthorized access attempts, permitting the follow-up and further review of potential breaches. Call forwarding (choice D) is a means of potentially bypassing callback control. By dialing through an authorized phone number from an unauthorized phone number, a perpetrator can gain computer access. This vulnerability can be controlled through callback systems that are available.
