NEW QUESTION: 2 Sun Stable is a global insurance company with headquarters located in Houston, Texas. The campus there is made up of a number of office buildings located within the same vicinity. In 2003, a new building, Building 331B was added. The additional building houses approximately 1000 employees. Rather than deploy a private branch exchange (PBX) in the new building, Sun Stable has decided to implement an IP telephony solution. External calls will be carried across a MAN link to another building, where a gateway connects into the worldwide PBX network of Sun Stable. Voice mail and unified messaging components are required and all IP phones and workstations should be on separate VLANs and IP subnets. Which IP telephony deployment best suits their need?**A.** multisite with distributed call processing**B.** clustering over the WAN**C.** multisite with centralized call processing**D.** single-site **Answer: D**Explanation:Section: (none)Explanation/Reference:

NEW QUESTION: 3 You manage a collection of large video files that is stored in an Azure Storage account.A user wants access to one of your video files within the next seven days.You need to allow the user access only to the video file, and then revoke access once the user no longer needs it.What should you do?**A.** Give the user the secondary key for the storage account. Once the user is done with the file, regenerate the secondary key.**B.** Create an Ad-Hoc Shared Access Signature for the Blob resource. Set the Shared Access Signature to expire in seven days. **C.** Create an access policy on the container. Give the external user a Shared Access Signature for the blob by using the policy. Once the user is done with the file, delete the policy.**D.** Create an access policy on the blob. Give the external user access by using the policy. Once the user is done with the file, delete the policy.**Answer: C**Explanation:Explanation/Reference:Explanation: By default, only the owner of the storage account may access blobs, tables, and queues within that account. If your service or application needs to make these resources available to other

clients without sharing your access key, you have the following options for permitting access:
